American Performance Cycle/APC Introduces the Wild Card

Las Vegas, NV - American Performance Cycle, a market leading world class custom production bike manufacturer located in Las Vegas, NV introduces their Wild Card...a drop seat pro-street style bike packed full of features found on bikes costing ten's of thousands of dollars more. It specs out with a 5" stretch and 93" wheelbase which provides great tracking and a superb ride. It also features a blind side swing arm, tons of billet and chrome and a 44 degree rake and start at just \$26,995. Perfect for those that want both "show" and "go!"

The Wild Card is right side drive and comes complete with an S&S engine, Baker 6-speed, billet closed primary, forged one-piece Forge-Tec or 80 spoke wheels and way too much chrome and billet to list. APC currently has 4 distinct models with various versions of each one (chopper, drop seat, FLH style and pro-street) that are all reasonably priced, but can be custom built with a variety of options to suit the most discriminating buyer. Three out of 4 of their models are available in 3 different packages, ranging from a 96" S&S motor all the way to a show quality polished 124" S&S engine. APC will soon be introducing a low, long and mean bagger which will be rubber mounted and have either a 280 or 300 mounted on it.

All APC models are CARB and DOT approved. For dealers interested in adding APC bikes to their current product line up and getting up to 12 months of free flooring, please call (702) 314-5272 or check out their website at www.apccycles.com.
