

## **AZBIG Feature Story #2**

**Boss Hoss**  
480-222-0094

Hey Guys...

I was covering Boss Hoss's Demo rides and open house and I just had to take the trike in the picture above for a ride, it was really easy to handle...Not like Mine LOL! These Bikes are a lot easier than they look! No matter how tall, short, big or small you are! Stop in and ask to take a Demo Ride for yourself and have fun!

Frank & Ken are the owners for a little over 2 years now and are 2 local guys who live here in the valley and love to ride. They both work on the motorcycles and are really involved in every part of the business. As we talk about all the things they are planning to do this year I felt what a bunch of real loyal guys and the great ideas they had.

Chris is the GM and what a wonderful man, he told me that here at Boss Hoss in Scottsdale they will customize your Viper, Boss Hoss Motorcycle, or Trike to what ever your needs and wants are. Chris also is very hands on with everything at the shop. They do all service work, sell parts and accessories...this is a must place to stop in and Tell them Kimmy & Kelly Sent Ya
