

Feature Story

Knockout Motorcycle Co.

Ralph Randolph

480-279-1734

If strength comes from growing pains, these guys are one of the strongest and Fastest growing motorcycle builders out there. A shop that started in a garage with two friends has grown into a multi service, custom building, and parts manufacturing operation. If you are looking to customize your current bike you have found your shop. Ralph Randolph and Kenny Lucas are partners in the motorcycle shop, Ralph is the designer and leader in creativity and Kenny makes the bikes run like new. The shop has Matt Michalek answering the questions the public has for getting fast service and the right part on their bike. This is only the beginning of what the shop is about and why you should go see them.

When you visit Knock Out Motorcycle Company, you get a full motorcycle adventure; Ralph is working on custom bikes for celebrities and filming a TV show for the Commemorative Air Force. The new shop has a show room with a lot of history on the walls and a selection of custom bikes for everyone to see and buy. The service shop has five lifts to accommodate a fast turn around for your next service. They will be having a grand opening party at the shop, so call them for details (489-279-1734). I asked Ralph what keeps the shop from becoming a full custom shop? Ralph replied "I love to make custom bikes, but what I really enjoy is having the average rider coming down to get service and talk about their love for motorcycles!" Not only will you get motorcycle stories from Ralph, this shop is full of things for everyone; they have clothes, parts and bikes....plus Ralph is a Captain for US Airways and girls he looks so sexy in his uniform!

The shop is full of things for everyone; we have clothes, parts and bikes. The reason these guys are growing so fast is because of the team work, and backing each other! All the hard work, all hours, the time spent away from their families on the road this last year for the Easy Rider Tour. Well it has paid off for you guys! I am so proud of you guys! Thanks for always supporting Biker Information Guide as we will always be backing and supporting you guys!

**So come visit the Knock Out crew
and tell them Kimmy and Kelly sent ya!**
