Well we all know Roger Bourget builds some of the best custom bikes around! But how did he get there? "BRIGITTE" Yes...That's right with the help from Brigitte.

There are a lot of good builders out there, but they don't make it, WHY? That's because they don't have someone like Brigitte behind the scenes backing them daily.

My very first Biker guide came out in 1997, they took the back cover and we have watched each other grow over the last 10 years. She told me in 1992 they started out with nothing but a dream! They became a cooperation in 1993 with a manufacturer license. In 2002 they were on the Discovery channel. I have watched this women over the years do everything from: clean bikes, help build them, to packing & shipping. To this day she still does payroll, the advertising, with the help from Adam, takes care of their 40 dealers, 89 employers, and the production of their bikes. She is half owner of Bourget's.

Brigitte and Roger have beaten the odds; they have stayed friends and become the best team ever! Brigitte wanted everyone to know, Bourgets is as strong as ever and would love for you guys to come take a tour and see everything they do!

Roger & Brigitte I want to thank you for always believing in me and supporting me for the last 10 years. I wish you both the most success in life and happiness!

Stop in and tell them Kimmy and Kelly Sent ya
