

# AZBIG'S MALE RIDER

John Stapleton

*The bike started as a normal 2007 Fatboy. I grew up in the Chicagoland area and have been riding for 20 yrs. Starting out riding imports and working in an import shop here in the Valley I worked at Town and Country Motorsports for 4 1/2 yrs. Before going to work for Hacienda Harley and meeting up with Kimmy Chapman and Matt Risley they taught me never take away from the true value of a Harley, but rather "Just make it look great". Keeping the bike as stock as possible, but still giving it that extra touch to make it turn heads . Now I am working at Chandler Harley-Davidson as the Chrome Consultant, which gives me a chance to work with people on a one on one approach to customize their Harley's.*
